

Mobil 1™

Performance by ExxonMobil

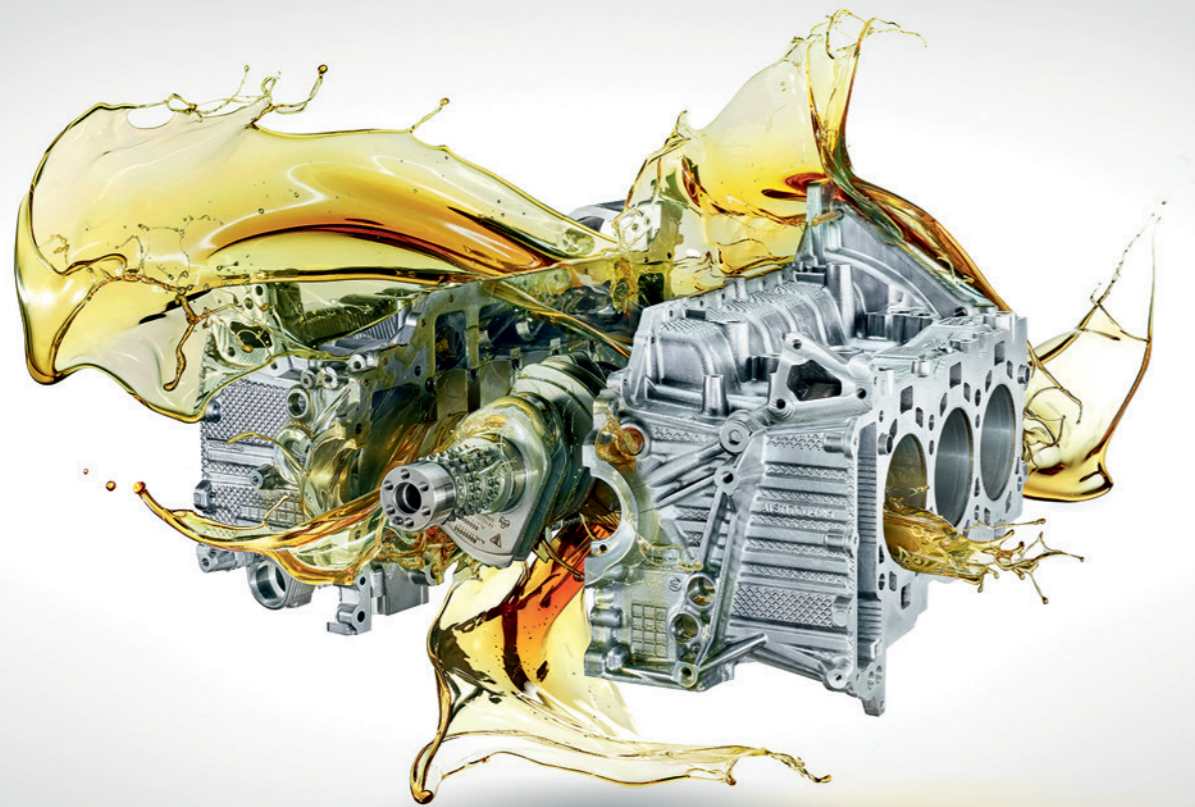

Sharing a passion for
flawless performance

Energy lives here™

"To begin with I simply could not find the car I was dreaming of – a small, light, energy-efficient sports car. So I decided to build it myself."

Ferry Porsche

An uncompromising collaboration

Hardly any other brand embodies the fascination for sports cars as much as Porsche. Porsche is synonymous with exceptional performance and a thrilling ride. Highly developed Mobil 1™ lubricants are one of the fundamental elements that make this possible. The two brands have worked closely together for many years to achieve outstanding results, both on the road and in motorsports. Porsche has chosen Mobil 1™ as factory-fill since 1994 which helps Porsche cars to perform to their full potential whilst ensuring optimal protection.

Our high-performance lubricants reach moving parts quicker, reducing wear and protecting them from harmful deposits while reducing fuel consumption and emissions. They let a Porsche deliver what Porsche drivers demand, right from start-up, over many years and thousands of kilometres.

Porsche and Mobil 1™ – an uncompromising partnership.

Class-leading components for class-leading performance

Our high-performance lubricant Mobil 1™ ESP x3 0W-40 is the latest result of our collaboration with Porsche – and the most advanced Mobil 1™ engine oil ever.

Mobil 1™ ESP x3 0W-40 was specially developed for high-performance engines. Its unique formulation and combination of advanced additives help ensure optimal power delivery, protection against wear, long engine life, engine cleanliness and help reduce fuel consumption*.

The outstanding advantages at a glance

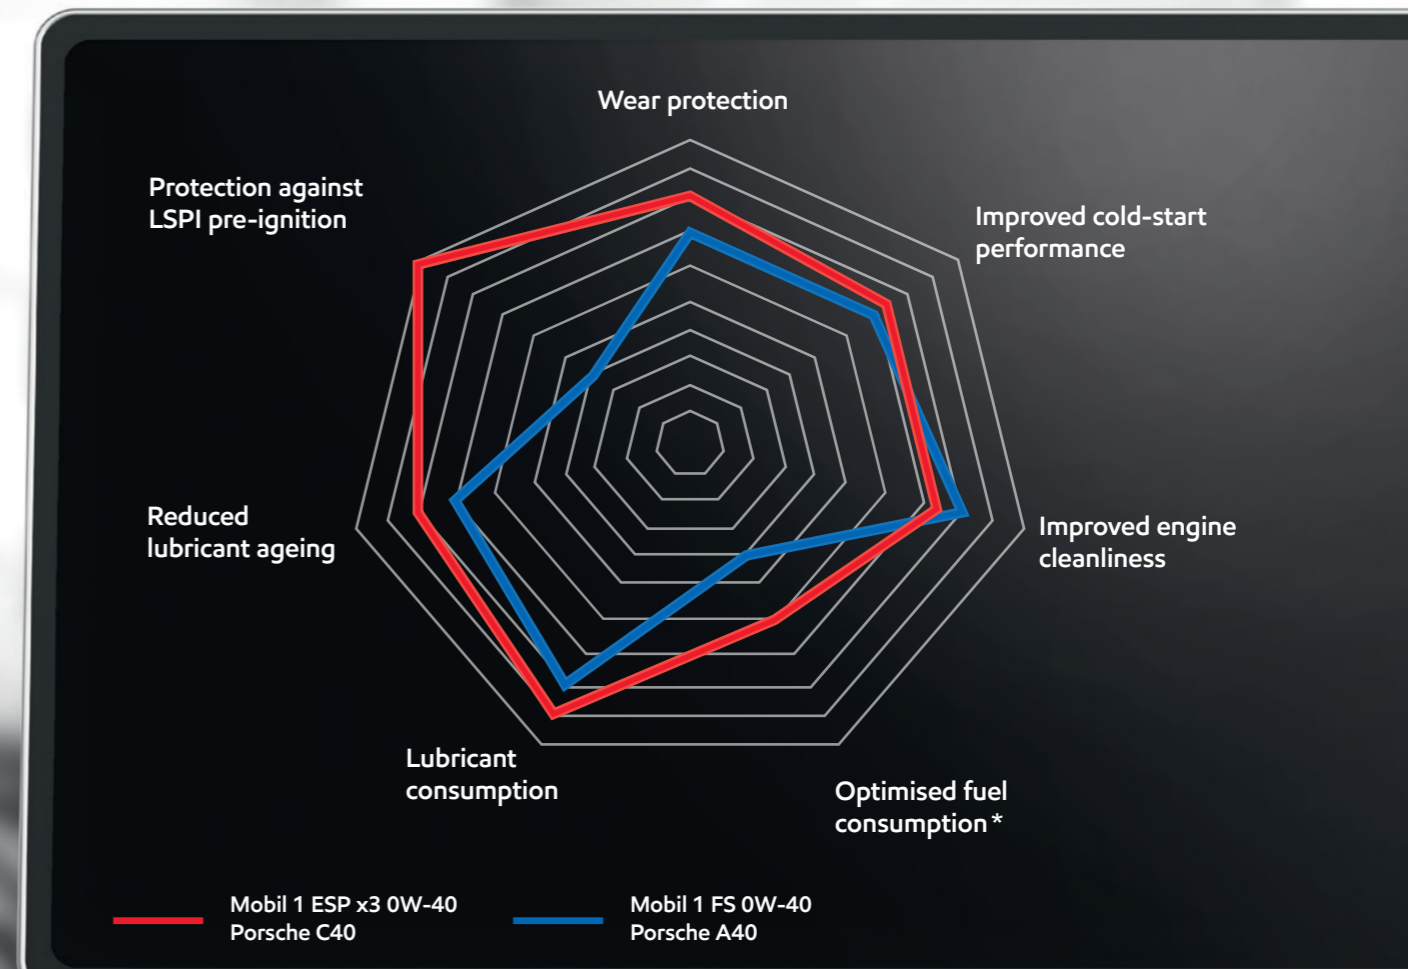

- Active detergent additives prevent the build-up of engine deposits and sludge
- Optimal high-temperature performance characteristics reduce lubricant ageing
- Outstanding low-temperature performance for improved cold starts
- Suitable for all engines with particle filters
- Approved for other brands' high performance engines, including Mercedes-AMG, Bentley, Audi RS and Corvette
- Also suitable for motor-racing and race cars

Mobil 1™ ESP x3 0W-40
The first lubricant to receive Porsche C40 approval!

With 1150 ppm zinc, suitable for older car types

Every Porsche writes history

The joy of every second at the wheel lasts a long time with a Porsche. 70 percent of all Porsches ever built are still on the road today.

From the very first Porsche 356 Nr. 1 Roadster hand built by Ferry Porsche himself, right through to the world-beating Porsche 918 Spyder created at the marque's Weissach Development Centre, every single Porsche is designed for maximum performance and

to retain its value as long as possible. This is why Porsche relies on the outstanding characteristics of Mobil 1™ – the high-performance lubricant that lets every Porsche write its very own history. Find out more at: protectinghistory.com
